Exceptions: Any metric not found in the table above is calculated on a Net to Net basis.	List of new pricing configuration (Less e-business discount) (Less net fees paid for converted licenses) = New net license fees Must verify net fees paid.	List of new pricing configuration (Less e-business discount) (Less net fees paid for converted licenses) = New net license fees Must verify net fees paid.

Technology Notes

1	Migration Matrix applies to all Full Use, Deployment, and Web Specific licenses. The migrated licenses will be Full Use.
2	If migrating Application Specific licenses: **Option #1** -- If maintaining App Specific license restriction, use the applicable migration metric. **Option #2** -- If not maintaining App Specific license restriction, use the migration metric for "Exceptions."
3	Authorized User shall not be entitled to any credits or refunds if net fees paid for migrated licenses exceed the list price of the new pricing configuration.
4	The Technology migration metrics above apply when converting existing Programs over to the new e-business licensing and pricing metrics. For product migrations, please refer to the Supported Migration Listing in the E-Business Global Price List Supplement. In the event of a conflict between this document and the E-Business Global Price List Supplement, the information in the E-Business Global Price List Supplement supersedes the information in this document.
5	Provided all licenses for the applicable program are being migrated, if the migration results in a fraction, standard rounding rules apply. E.g., 1500 UPUs rounds up to 2 Processors, and 1499 UPUs rounds down to 1 Processor.
6	Cells which contain "N/A" do not default to the "Exceptions" calculation. If the cell for the desired migration metric contains "N/A" please contact Oracle for instruction.
